Mustafa **Dhahir**

FULLSTACK DEVELOPER

Qaiwan Heights, Sulaymaniyah, Iraq (Moving to Germany with Chancenkarte Visa)

(+964) 7701032485 | mail@mstfa.me | mstfa.me | MustafaBaban | Mustafababan

Summary

I'm a full-stack developer from Kurdistan, Iraq, with **5+ years** of experience building web and mobile applications using **Laravel, Vue.js, and TypeScript.** I design accessible user interfaces and optimize each product's user experience. **I'm a quick learner**, ready to leverage my skillset to deliver production-ready code

Skills

Coding	JavaScript/TypeScript, HTML, CSS, SCSS, PHP, Data Structures and Algorithms
Libraries & Frameworks	Vue, Vite, Laravel, Ionic, Tailwind CSS, Quasar, React
Tools & Platforms	Git, GitHub, Figma, npm, Linux, SQL, Dexie.js (IndexedDB)
Tech Experience	UI/UX, PWA, SEO, APIs, Accessibility (WCAG), SSH, Team Communication, Problem solving
Languages	Arabic, Kurdish, English, **German (B1 Certificate)**

Education

B.Sc. in Information Technology
UNIVERSITY OF HUMAN DEVELOPMENT

Sulaymaniyah, Iraq

2017 - 2021

- Received a Statement of Comparability ("**Zeugnisbewertung**") from the Central Office for Foreign Education (ZAB), Germany.
- Completed my studies in English as the medium of instruction. Received a certificate from the Dean confirming my proficiency in English.

Work Experience

Sulaymaniyah Chamber of Commerce
FULL STACK CONSULTANT

Sulaymaniyah, Iraq

Jun. 2024 - Present

- As a consultant for the Sulaymaniyah Chamber of Commerce I determined which ERP system best met their requirements. I **lead numerous meetings** and thorough evaluations until a suitable solution was reached
- As a consultant for the Sulaymaniyah Chamber of Commerce I **provided solutions to improve the POS system** for memberships SMS warnings on end of subscriptions, streamlining the customer search process with QR codes thus making the entire process faster and more efficient.

FREELANCE WEB DEVELOPER

- Developed **Kartei** an open-source flashcard app, using Ionic Vue & PWA across all platforms to help with my German language learning. Designed and built this engaging educational tool to meet personal needs, ensuring cross-platform compatibility and ease of use while promoting vocabulary retention through interactive flashcard exercises.
- Implemented a **liveness detection** feature for facial recognition in an existing application as a freelance developer, using **CompreFace**. Enhanced security and user verification by integrating this biometric technology, ensuring accurate identification while preventing spoofing attempts by employees.

Moonline Travel   *Sulaymaniyah, Iraq*

FULL-STACK WEB DEVELOPER   *May. 2020 - Jun. 2024*

- Performed **performance testing** on a complex SAP search query, **reducing execution time by over 9 seconds** through query-option adjustments.
- **Architected and led development** of FormMaker(Demo on mstfa.me), a Vue.js portal form builder with built-in validation and auto-generated SAP backend models, empowering SAP teams to self-serve new field creation and **saving developers over 100+ hours on form setup**.
- **Surveyed** SAP developers in order to create a custom form building solution using **Vue**.
- Conducted **testing** with the operation team to ensure the solution was reliable and efficient
- Provided **documentation** and **training** to the development team to enable them to create custom forms using the new solution
- **Added features, Debugged and resolved** issues in the legacy code, while ensuring backward compatibility with the existing system
- Developed, architected **Visa Advisors** a Visa application platform at Moonline—a suite of three **Laravel + Blade** applications (customer portal, B2B agent credit-purchase portal, and internal admin dashboard)—processing **20,000+ Visas and 1000+ agents.**
- **Designed and developed Packages**, which is a package of a Visa application, Flight ticket and hotel for customers on the moonline website, which is a tool the content writers would use to give discounted offers for customers.

Plus The Edge   *Sulaymaniyah, Iraq*

FRONT-END WEB DEVELOPER   *Jan. 2019 - Apr. 2020*

- Using Vue I Designed and developed The front end for various applications, including a Hospital, Warehouse, and Restaurant Management Systems.
- Developed the front end side for an order placing system and payment by PayPal for a Restaurant in the UK

Rozhi Spi Internship Program   *Sulaymaniyah, Iraq*

WEB DEVELOPER   *2018*

- developed the user-friendly frontend and implemented essential backend features for an accounting application. Created financial data management by making efficient modules for transaction tracking, financial reporting, and user authentication, fulfilling all specified requirements.
